how to save money

Telephone people want to provide you with telephone service that fills your needs. So we've put together the following tips to help you choose good telephone service at the lowest possible cost.

HOW TO SAVE ON LONG DISTANCE

call station-to-station. This type of long distance call is lower priced than person-to-person. Call station-to-station when you're reasonably sure the person you want to talk to will be there or you'll talk to anyone who answers. (This includes answering machines.)

dial it yourself. You'll save money by dialing long distance calls yourself. They cost less than operator-assisted calls, and are faster, too. Direct dialing rates also apply on station calls placed with an operator where direct dialing facilities are not available.

call when rates are lower. Call long distance on week nights and on weekends for lower rates. Higher rates are during business hours on weekdays.

call on holidays. Rates are cheaper on some holidays. You can take advantage of the lower holiday rate by calling on New Year's Day, July 4th, Labor Day, Thanksgiving and Christmas Day.

schedule your calls. If you schedule your long distance calls in advance, your friends or relatives will be expecting your call. Then you can call station-to-station instead of person-to-person. Dialing station-to-station can cost less than half as much as calling person-to-person.

plan your conversation. Decide what you want to say and jot it down before you call. That way, you'll be able to cover everything in less time. You can avoid repeating things by having family members listen in on extension phones.

don't pay for wrong numbers. If you dial a wrong number, call the operator right away to make sure you're not charged for the call.

report bad connections. If you have a bad connection, hang up and call the operator. The operator will see that you get a better connection and adjust the charge so that you won't be billed for the time your call was interrupted.

check your directory. Before making a long distance call to a business in another town, check your phone book to see if the business has a toll-free number. If they do, you'll save yourself the price of a long distance call.

OTHER MONEY-SAVING TIPS

vacation aid: If you're going to be away from home for a month or more, you can save money by temporarily suspending your Northwestern Bell telephone service. The rate for suspended service is lower than most regular rates, and you can have your calls transferred to another number.

one trip: When you move, in most cases, you can save money on connection charges if you have all your service options (items such as extensions, etc.) installed at the same time. Then the installer won't have to make a second trip to your home, and you won't have to pay a second charge.

pay phone refund: If one of our pay phones keeps your dime and doesn't give you a call, please jot down the number of the offending phone and report it to the operator. We'll mail you a refund and have the phone fixed as soon as possible.

bill problems? It's always a good idea to check your phone bill before you pay it. If you have a question about your bill, call the business office. A service representative will help you solve the problem.

planning to move? Northwestern Bell may give you a $5 credit if you move to a new address in any of the five states served by Northwestern Bell and take your present phones with you. **Before** you take them to the installer at your new location, check with your Northwestern Bell business office to see if you are eligible for the installation credit.

package plans: If Touch-Tone service is available in your community, consider one of the Touch-Tone bargain packages. For example, for $5.95 a month plus basic service and connection charges, you can get three color Touch-Tone telephones (you can choose any combination of standard wall or desk phones, Trimline wall or desk phones or Princess phones). Call the business office to talk with your service representative.

basic service. If you're on a limited budget, you should consider having only one rotary dial telephone in your home. Telephone service without extension phones saves money but sacrifices convenience. However, with one basic phone you do have a variety of colors and wall or desk models to choose from, at no extra charge.

types of long distance calls

Station (You can dial direct)

Call "station" if you will speak with anyone who answers. Lowest rates apply on station calls. Charging starts when the called telephone is answered. (This includes answering machines.) If you cannot dial direct, dial "Operator." The same "dial-it-yourself" rates will apply.

Person (Dial "OPERATOR")

Call "person" if you want to talk to a particular person or extension. Rates are higher than for a station call and also apply when you talk to an alternate person or extension. Charges start when conversation begins.

Collect (Dial "OPERATOR")

You may call "collect" if the person or firm you are calling will agree to pay the charges. If you want to call collect, be sure to tell the operator when placing the call.

Overseas (Dial "OPERATOR")

You can call practically any telephone in the world from your phone. Tell the operator you want to place an overseas call and give the name of the country you are calling.

BERMUDA—You can now dial your own station-to-station calls direct to Bermuda. Just dial "1," then area code 809 and the telephone number.

Wide Area Telecommunications Service (Inward WATS)

Station-to-station long distance calls may be made, without charge to you, to those customers who have inward wide area telecommunications service. They offer this service to their customers calling from specific locations. Dial "1" as you do for any long distance call, next area code 800, then the special number of customers who have this service.

Other Special Calls (Dial "OPERATOR")

Credit card, conference, Zenith, mobile, or other calls requiring special handling should be placed with the operator.

WARNING: Unlawful Uses of the Telephone

Fraud

Iowa law prohibits the fraudulent use of a credit card or telephone billing number, or obtaining or attempting to obtain telephone service with intent to avoid charges. The maximum penalty for violation is a fine of $1,000 or 5 years imprisonment or both.

Annoyance Calls

Intentional annoyance of any person by use of the telephone is prohibited by law. The maximum penalty for violation is a fine of $500 or imprisonment for one year or both.

Party Line Misuse

The Iowa law relating to intentional obstruction of emergency telephone calls reads as follows:

Section 1. For the purpose of this Act, the following terms have the meanings ascribed to them.

1. "Party line" means a subscriber's line telephone circuit consisting of two or more main telephone stations connected therewith, each station with a distinctive ring or telephone number.
2. "Emergency" means a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential.

Section 2. Any person who shall intentionally refuse to relinquish immediately a telephone party line or public pay telephone when informed that such line or telephone is needed for an emergency actually existing in Section One of this act, for use in calling a fire department or police department, or for medical aid or ambulance service, shall be fined not exceeding one hundred dollars or imprisoned in the county jail not exceeding thirty days.

Section 3. Any person who shall secure the use of a telephone party or public pay telephone by falsely stating that such line or phone is needed for an emergency call shall be fined not exceeding one hundred dollars or be imprisoned in the county jail not exceeding thirty days.

general information

Annoying, Harassing and Threatening Calls

Annoying, harassing and threatening phone calls are punishable under state of Iowa or Federal law. If you receive such calls, hang up immediately. If they persist get in touch with your Telephone Business Office. Threatening calls should be reported immediately to the police.

Your Telephone Number Is Important

Make it easy for people to reach you. Include your area code and telephone number on business stationery, statements and advertising. It helps others call you faster.

Rates and Regulations

Regulations and rules governing the furnishing of services by your Telephone Company are on file in your Business Office. A representative will be glad to assist you in obtaining information from them.

Attachments to Telephone Facilities

Equipment, apparatus, devices or systems not furnished by the Telephone Company may be used with its facilities provided such equipment and its use complies with the Company's tariffs on file with the Iowa State Commerce Commission.

The tariffs are designed in the interests of good telephone service and to prevent hazards to customers and Company employees.

A customer's service is subject to suspension when customer-provided equipment or jacks, plugs, extension cords, etc., are used in violation of these tariffs.

Liability of Telephone Company

Service Interruptions

Northwestern Bell's liability for damages due to mistakes, omissions, interruptions, delays, errors or transmission defects in furnishing service or facilities is limited to an adjustment of charges for the period of time customer service is adversely effected.

The Company will make every reasonable effort to prevent interruptions of service. However, if a partial or complete service interruption does occur which is not due to negligence or a willful act by the customer, a prorate adjustment will be made. The adjustment will cover any fixed monthly or annual charges for service, equipment and facilities affected by interruptions as follows:

1. Interruptions extending beyond twenty-four (24) hours*—

   The Company will voluntarily adjust charges for services and equipment on a prorate basis from the time the interruption is reported or detected until service is restored. If in the Company's judgment, circumstances prevent a customer from notifying the Company of a service interruption, the requirement for notification to or detection by the Company may be waived. If known by the Company, the period adjusted will begin when the interruption occurred. In all other cases, the period adjusted will begin when the customer first becomes aware of the interruption.

2. Interruptions for a period less than twenty-four (24) hours*—

   When reported to the Company, adjustments for outages will be made if, in the Company's judgment, circumstances so warrant.

This tariff is on file with the Iowa State Commerce Commission and is also available for review at the Northwestern Bell Business Office.

*Independent telephone company tariffs may specify a different interruption time before a prorated adjustment will be made. This tariff information is available through your independent telephone company business office.

Directory Errors and Omissions

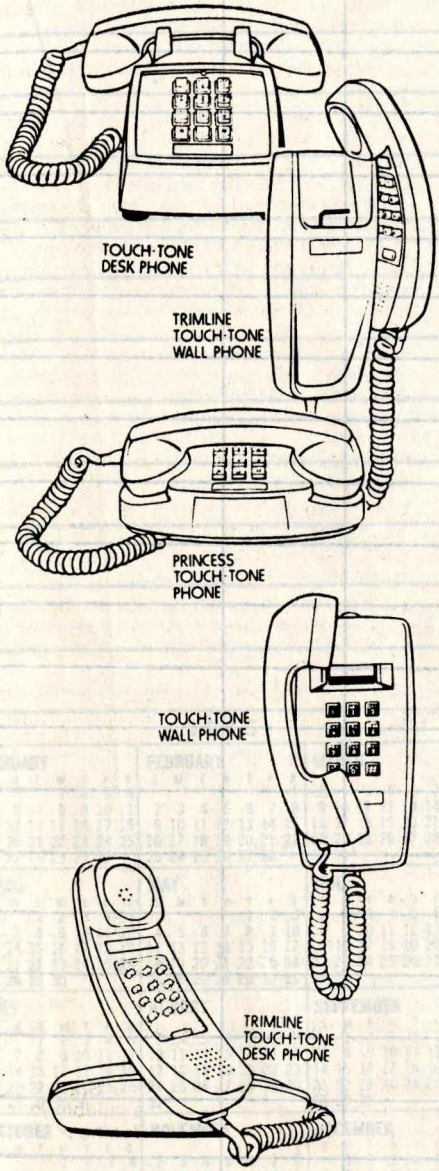

Northwestern Bell's liability due to errors in or omissions of directory listings shall be limited to and satisfied by an adjustment of not more than one-half of the fixed charges for service affected. The adjustment will be made for the period from the date of issuance of the directory containing the mistake to the date of issuance of a new directory containing the correct listing.

This tariff is on file with the Iowa State Commerce Commission and is also available for review at the Northwestern Bell Business Office.

A Salute to the 200th Birthday of the United States and the 100th Birthday of the Telephone

"Happy Birthday, America!" from your Bell System Telephone Company. That's what the cover of this directory is...a birthday party for the nation. And since 1976 is also the centennial of the telephone, we gave each of the 26 guests of honor on the cover a famous phone from yesterday or today. What are they talking about? The two birthdays, no doubt, with reminiscences, tall tales, best wishes, and perhaps even a little bit of gossip. The list below and the key above identify the cover characters and what kinds of phones they're using.

GENERAL TELEPHONE COMPANY OF THE MIDWEST

TO CALL A PARTY ON YOUR LINE

If on repeated attempts to call a number the line is always busy it may be that the called number is on your line. Or if it is known that the party you wish to call is on your line, and you wish to call that party, proceed as follows:

1. Lift your receiver and listen for dial tone.
2. Dial 99 and directory listed number.
3. After dialing you will hear the busy tone. Then replace your handset. Allow a reasonable length of time for the other party to answer, then pick up your handset and talk.
4. When the party you are calling answers, he will hear a 'ticking' sound which indicates that he should wait for calling party to speak.
5. If the called party does not answer, replace your handset.
